Dr. Desikan Setlur

Ph.D. in Maritime Occupational Health & Safety

Leading with Grit, Shaping Success

Dr. Desikan Setlur is the visionary founder of Medshield, a pioneering force in revolutionizing healthcare for the maritime industry. With an extensive background of over two decades in strategic leadership and operational excellence, Dr. Desikan's approach combines his profound expertise in maritime healthcare with a passion for addressing the unique challenges of healthcare delivery at sea.

Expertise in Maritime Health

Dr. Desikan's academic credentials include a Ph.D. in Maritime Occupational Health & Safety from Swansea University, U.K., providing him with a deep understanding of the intersection between healthcare and the maritime sector. Over the years, he has developed unparalleled expertise in the areas of medical evacuations, port operations, and healthcare management across India and Asia, specifically tailored to the needs of seafarers and the maritime workforce.

His hands-on experience and insights into the complex nature of maritime health make him a trusted leader in the industry, delivering healthcare solutions that are both effective and scalable. Dr. Desikan has successfully navigated the intricacies of global insurance networks, Third Party Administrators (TPA), and medical claims management, creating a bridge between the maritime sector's healthcare requirements and operational processes.

Vision for Healthcare Excellence

At the core of Dr. Desikan's philosophy lies a commitment to transforming maritime healthcare delivery. His approach seeks to close the gap in services for those who work at sea, focusing on seamless medical evacuation procedures, comprehensive healthcare models, and innovative health solutions. This commitment is reflected in his establishment of Medshield, a company dedicated to delivering high-quality healthcare that not only meets current needs but also anticipates the future challenges of the maritime community.

Dr. Desikan's leadership is grounded in a customer-first philosophy, where the aim is to provide solutions that are tailored, scalable, and adaptable to the ever-evolving needs of seafarers, cruise lines, and maritime agencies. Medshield's approach combines cutting-edge technology and practical business solutions, ensuring operational efficiency while maintaining the highest standards of care.

Leadership and Global Expansion

Dr. Desikan has successfully steered Medshield's expansion into global markets, leveraging his deep understanding of both maritime regulations and healthcare systems to create a robust framework for global healthcare operations. Under his leadership, Medshield has become the go-to partner for maritime health solutions, with an emphasis on global operations, seamless service delivery, and a customer-centric approach. His ability to build strong industry networks, coupled with his vision for integrated and sustainable healthcare solutions, has positioned Medshield as a leader in the maritime healthcare sector. Dr. Desikan's vision is to create a more accessible, efficient, and sustainable healthcare model that transforms the current approach to seafarer health, ensuring it's both future-ready and resilient to emerging challenges.

Shaping the Future of Maritime Healthcare

As Medshield continues to grow under Dr. Desikan's leadership, his focus remains on setting new global benchmarks for healthcare quality, efficiency, and innovation. His relentless drive to elevate the standard of healthcare within the maritime sector ensures that Medshield remains at the forefront of the industry, providing tailored solutions that meet the complex needs of seafarers and maritime agencies worldwide.

Dr. Desikan's enduring legacy is one of innovation, excellence, and commitment to improving the healthcare experience for the global maritime community. His vision for Medshield is to continue leading the charge in maritime health solutions, becoming the trusted partner for companies across the world seeking effective, sustainable, and cutting-edge healthcare solutions.

Co-Founder | COO

Dr. Princi Singh

BDS | Certified Hospital Management Specialist

Efficient Solutions, Healthier Seas

Dr. Princi Singh is the Co-Founder of Medshield, a leading innovator in healthcare solutions for the maritime industry. Combining her solid foundation in Dental Surgery (BDS) with specialized expertise in Hospital Management, Dr. Singh plays an instrumental role in shaping the operational success and day-to-day functions of Medshield, ensuring that the company delivers world-class healthcare solutions to seafarers, cruise passengers, and maritime workers around the globe.

Clinical Expertise and Operational Leadership

With over a decade of experience in the healthcare sector, Dr. Singh brings a rare blend of clinical proficiency and operational acumen. After obtaining her BDS degree, she pursued advanced education and certification in Hospital Management, positioning her as an expert in optimizing healthcare delivery, streamlining operations, and improving patient care across diverse healthcare settings. Her extensive background provides Medshield with a unique advantage in bridging the gap between clinical excellence and efficient healthcare management.

Dr. Singh's leadership ensures Medshield's ability to provide patient-centered care that is both efficient and adaptable to the demanding needs of the maritime environment. Whether onboard vessels or through telemedicine services, Dr. Singh oversees Medshield's healthcare operations to ensure seamless delivery of care, anytime and anywhere in the maritime world.

Healthcare Operations and Telemedicine Innovation

As Co-Founder, Dr. Singh is directly responsible for overseeing the company's healthcare operations, from the coordination of treatment plans to the implementation of telemedicine solutions for seafarers stationed in remote locations. Her deep understanding of hospital management allows her to effectively manage patient care protocols, foster collaborations with hospitals globally, and integrate advanced healthcare technologies into Medshield's day-to-day practices.

Dr. Singh has been a key advocate for healthcare innovation within Medshield, particularly in the field of telemedicine. Under her leadership, Medshield has introduced remote consultations and diagnostic services for maritime workers, providing essential healthcare access in challenging, remote maritime environments. Dr. Singh's dedication to leveraging technology in healthcare ensures that Medshield remains at the forefront of delivering timely and effective care, no matter where seafarers and maritime employees are located.

Strategic Leadership and Vision

In addition to her operational management role, Dr. Singh is a strategic leader and advisor within the Medshield executive team. Working closely with Dr. Desikan Setlur, the Co-Founder, Dr. Singh plays a critical role in shaping the company's vision and strategic decisions. Her expertise in both clinical care and hospital operations ensures that Medshield's solutions are not only innovative but also scalable and aligned with the evolving healthcare needs of the maritime sector. Driven by a strong commitment to improving healthcare accessibility and patient outcomes, Dr. Singh's leadership focuses on creating solutions that address the unique challenges of the maritime workforce. Whether optimizing care through real-time data analysis or expanding Medshield's network of healthcare providers, Dr. Singh is dedicated to ensuring that healthcare solutions are always accessible, efficient, and tailored to meet the maritime industry's specific needs.

Transforming Maritime Healthcare

Passionate about transforming the way healthcare is delivered to those working at sea, her vision for Medshield, remains focused on the overall expansion of the company's services, to embrace technological advancements, and ensure the integration of healthcare systems across global maritime networks. Under her leadership, Medshield is uniquely positioned to offer cutting-edge healthcare solutions that not only address current challenges but also anticipate future healthcare needs within the maritime industry.

Dr. Singh's hands-on leadership style, coupled with her operational expertise, enables Medshield to maintain its position as a trusted leader in maritime healthcare, while continuously improving services and expanding its reach. As the company continues to grow, Dr. Singh remains deeply committed to enhancing healthcare accessibility and delivering exceptional care to the maritime community, one patient at a time.
