The Team

MedShield's success is driven by a diverse and highly skilled team of professionals across a variety of disciplines. Our team members collaborate seamlessly to ensure the best healthcare solutions for maritime companies

Dr. Desikan Setlur

Founder | CEO

Dr. Desikan Setlur, the visionary founder of MedShield, has revolutionized maritime healthcare with his strategic leadership and deep expertise. With over two decades in the field, he combines innovation, operational excellence, and a seafarer-first approach to transform healthcare delivery at sea. A Ph.D. holder in Maritime Occupational Health & Safety from Swansea University, U.K., Dr. Desikan has mastered medical evacuations, port operations, and claims management. His global network expertise and industry insights make him a trusted leader in maritime health solutions. Under his leadership, MedShield bridges the gap between healthcare needs and operational efficiency, ensuring seamless, tech-driven healthcare solutions for seafarers worldwide. With a customer-first philosophy, he continues to drive innovation, efficiency, and excellence, shaping the future of maritime healthcare and setting new industry benchmarks.

Dr. Princi Singh

BDS | Certified Hospital Management Specialist

Dr. Princi Singh, Co-Founder of MedShield, blends clinical expertise with operational leadership to redefine maritime healthcare. A Dental Surgery [BDS] graduate with specialized training in Hospital Management, she plays a pivotal role in streamlining healthcare delivery, optimizing operations, and enhancing patient care for seafarers worldwide. With over a decade in healthcare, Dr. Singh leads telemedicine innovation and global care coordination, ensuring seamless, tech-driven medical solutions in remote maritime environments. Her strategic leadership fuels MedShield's expansion, integrating advanced healthcare systems across global networks. Dedicated to transforming healthcare accessibility, Dr. Singh ensures MedShield remains an industry leader, providing efficient, scalable, and patient-centered solutions that anticipate the evolving needs of the maritime workforce.

Our Core Team

CMS

Coordinating between all stakeholders, our Case Managers keep operations on track, ensuring timely updates and decisions.

SMEs

MedShield's SMEs provide the deep industry-specific knowledge that allows us to stay at the cutting edge of maritime healthcare services.

Advisors

Specializing in complex maritime claims, this team ensures fair, compliant resolutions based on global regulatory standards.

Medical Expert

Our panel of maritime medical specialists, doctors, and nurses provide continuous care from emergency interventions to ongoing treatment.

Our Core Team

Pharmacologists

Our pharmacologists ensure safe and compliant medication use, while our healthcare strategists focus on improving the overall health and operational efficiency of maritime personnel.

IT Team

Our 24/7/365 tech enablement team ensures that MedShield's digital infrastructure is always running smoothly, supporting seamless operations and enhancing client satisfaction.

Our Services

**OCCUPATIONAL
HEALTH &
SAFETY**

Medical Claims Management

- MedShield delivers efficient and reliable medical claims management tailored for the maritime industry.
- Our structured process ensures accurate validation, cost containment, and seamless reimbursements, minimizing financial risks for employers while upholding seafarers' health rights.
- We focus on fraud prevention, policy compliance, and dispute mitigation, ensuring claims are processed fairly and efficiently with global best practices in mind.

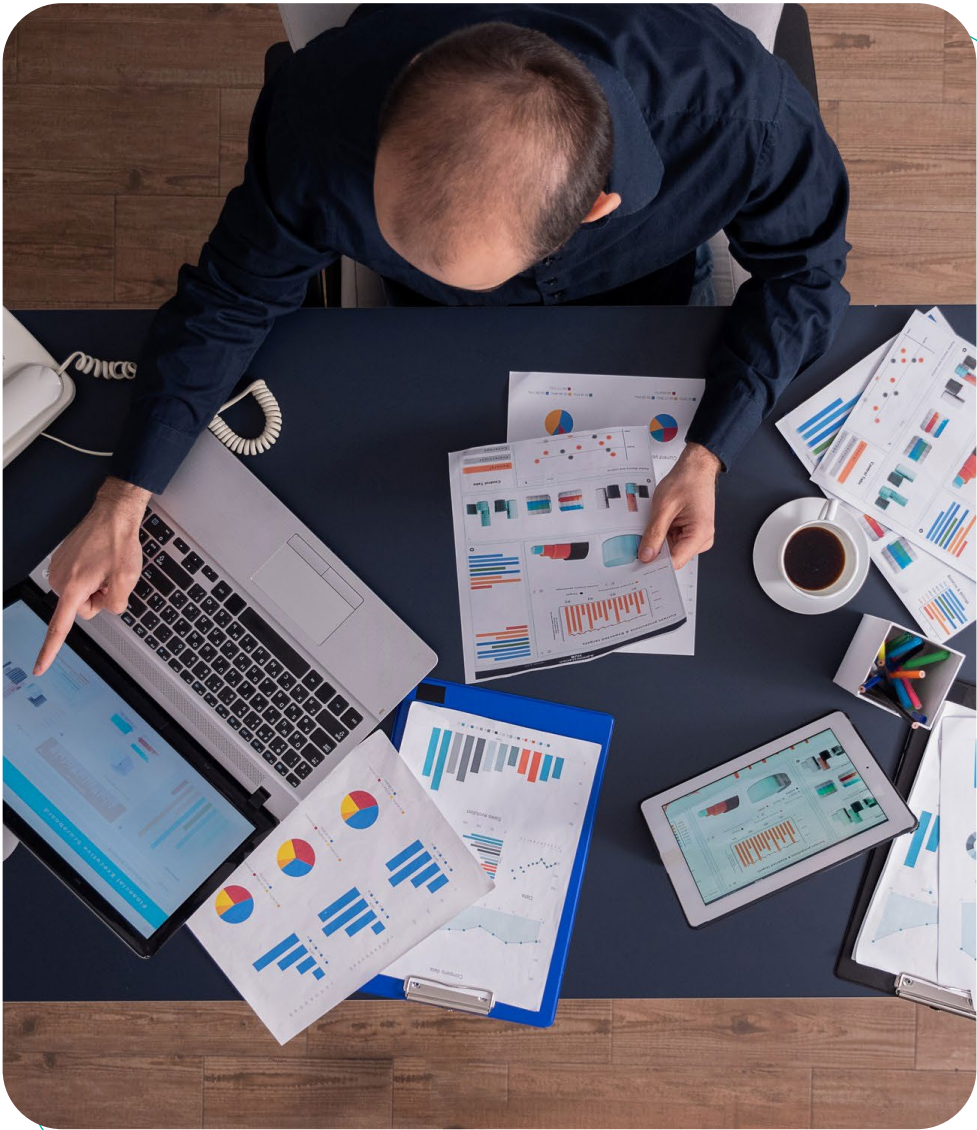

Tele Medicine

- Our advanced telemedicine solutions bridge geographical gaps, providing seafarers with instant access to medical specialists anywhere in the world.
- Through secure platforms, we offer real-time consultations, remote diagnostics, and medical advice, ensuring timely intervention and preventing medical complications.
- This service enhances crew well-being, reduces unnecessary evacuations, and optimizes healthcare costs for maritime employers.

Claims Arbitration & Legal Dispute Resolution

- MedShield specializes in resolving maritime medical claims disputes efficiently.
- Our experts navigate complex legal frameworks, MLC compliance, and employer liabilities, ensuring fair settlements for all stakeholders.
- We mitigate risks related to fraud, ambulance-chasing, and excessive medical costs, protecting businesses while safeguarding seafarers' rights.
- Our arbitration services ensure swift, compliant, and equitable resolutions to minimize operational disruptions.

Maritime Medical Welfare Budgeting & Auditing

- We provide strategic budgeting and auditing for maritime medical welfare, ensuring cost-efficient healthcare management without compromising quality.
- Our team analyzes treatment plans, validates medical expenses, and prevents overbilling, optimizing resources for shipowners and employers.
- With expertise in PEME audits, vessel-specific assessments, and financial planning, we help clients maintain transparent, well-regulated, and budget-friendly healthcare programs for their crew.

Case Studies >

Case Study 1 - Optimizing Seafarer Treatment Costs

Problem

A seafarer faced inflated medical costs [3X market average] due to hospital exploitation of their employer-provided insurance.

Investigation: MedShield found

Hospitals inflated prices upon learning of insurance coverage.

Unregulated pricing in the region allows for significant markups.

Outsourced services within the hospital incurred additional fees.

Solutions: MedShield

Negotiated lower hospital costs.

Referred the patient to independent specialists.

Implemented strict cost monitoring.

Maintained transparent communication.

Case Study 1 - Optimizing Seafarer Treatment Costs

Results

- 1 Consultation fees reduced by 65%.
- 2 Surgery costs reduced from 7.75 Lakhs to 2.55 Lakhs.
- 3 Rehabilitation costs reduced by 60%.
- 4 Overall claim reduced by over 66%.

Key Takeaway

MedShield's expertise in cost negotiation, strategic referrals, and transparent communication prevented significant overcharges, demonstrating their value in navigating complex medical pricing.

Case Study 2 - Eliminating Inefficiencies in Seafarer Medical Treatment Coordination

Problem An employer relied on a PEME vendor for seafarer treatment in India, leading to inflated costs, delayed recovery [40% longer], and suboptimal care due to the vendor's vested interests & lack of medical expertise.

Investigation: MedShield found

The PEME vendor prioritized financial gain over patient well-being.

The chosen facility lacked expertise and infrastructure.

This resulted in substandard care and prolonged recovery.

Solutions: MedShield

Used its proprietary model to select qualified providers.

Deployed specialists to analyze & challenge the initial treatment.

Provided case management & ensured immediate appointments.

Delivered a detailed report to the employer, outlining treatment deficiencies.

Case Study 2 - Eliminating Inefficiencies in Seafarer Medical Treatment Coordination

Results

- 1 Time optimization, ensuring prompt recovery.
- 2 Cost savings of INR 3.5 Lakhs.
- 3 Improved recovery outcomes for the seafarer.
- 4 Ethical oversight and restored trust.

Key Takeaway

MedShield's expertise in unbiased provider selection, ethical oversight, and proactive problem-solving saved costs and improved patient outcomes, demonstrating their value over vendors with conflicts of interest.

Team - SME Panel

Medshield's Expert Team

Medshield's maritime healthcare services are powered by a diverse team of Subject Matter Experts [SMEs], including:

1
